

MCS Delivers Engineered Systems On Demand, Cutting Costs by 80% and Time by 75%

Typical implementation without MCS

Implementation with MCS

Application Build using MCS

Time & Cost

THE CHALLENGE

IT had 30 days and a slim budget to deliver Oracle Enterprise BI in multiple platforms for corporate-wide pilot.

A typical implementation requires 12 weeks and management approved budget.

SOLUTION: using MCS

3x

**FASTER
IMPLEMENTATION**

From 12 weeks
to 3 Weeks

83%

CHEAPER

OBIA (ODI)
OBIA (Infa)
LinuxSysAdmin
WinSysAdmin
DBA

**Reduced
Resources to
One Service**

MCS is the only solution with:

mcs_p

- Build and maintain custom vaults with multiple systems
- Build personal clouds on the fly and apply custom security and privileges for each
- Move immediately and easily between clouds
- Perform backups and restores across cloud providers
