

The simplest way for teams to work together securely

How — and where — people work has changed. Being a part of a distributed team is the new normal, and people need easy-to-adopt tools that empower them to connect and collaborate from anywhere. With Google Workspace Essentials, you get everything you need to make remote teamwork more seamless and effective. It even works with your existing productivity solution — no email migration or domain verification required.

Google Workspace Essentials helps teams accomplish more with:

Secure video conferencing

Google Meet delivers seamless, secure, and simple-to-use video conferencing built on Google's robust and secure global infrastructure. Connecting with coworkers and collaborators is quick and easy, whether they're across the office or across the globe. Just set up a meeting and share a link. Join from any modern browser or using the mobile apps — no plug-ins required.

Modern collaboration tools

Google Docs, Sheets, Slides, Forms, and Sites make it easy for teams to work and create together, from anywhere. With one source of truth, you know you are always working on the latest version. Google Forms give you instant insights when you need to be agile. Google Drive makes it simple to store, open, share, and edit content from any device, and changes are synced automatically, so you always have the latest version.

Fast, easy adoption

Google apps offer an intuitive experience that billions of users already know and love from their personal lives, making the learning curve short and adoption easy. Business-specific features increase impact — and because the Google Workspace Essentials apps are designed to work with many of the business tools you already use, including Microsoft Office, there's minimal disruption.

Google Workspace Essentials

apps are fully integrated and designed to work together seamlessly

Record your Meet video conferences and save them to Drive to share or watch again later

Easily present Docs, Sheets, and Slides content in Meet and co-edit live with your team

With a single source of truth you can tightly control access to your files in Drive

Companies in every industry are using Google Workspace to modernize the way they work

In just under three months, we saw people working differently. Over 94% of users were actively using Google Drive, with over 57,000 hours of Google Meet sessions conducted in one month alone.”

It's easy to get started

Switching from Zoom and Box can result in >60% monthly savings!
